

# List of online supplements

The following are the online supplements to our paper

1. Data: the folder named “data” contains the following materials
  - seven files containing analyzed data,
  - description of the above data files.
2. Codes: the folder named “R-codes” contains R-scripts used to produce all the figures and tables of the paper (barring some editing of format of the figures). These scripts are labeled by the figure and the table names.
